

Ahmad Anwar

SENIOR FULLSTACK REACT DEVELOPER

 ahmed.anwar@zeikh.com

PROFESSIONAL SUMMARY

Results-driven Senior Fullstack React Developer with over 6 years of comprehensive experience in architecting, developing, and scaling high-performance web applications. Proven expertise in modern JavaScript ecosystems, including React.js, Next.js, TypeScript, and Node.js. Adept at leading cross-functional development cycles, mentoring engineering talent, and translating complex business requirements into clean, maintainable, and user-centric code.

TECHNICAL SKILLS

Core Technologies:	HTML5, CSS3, JavaScript (ES6+), TypeScript, Node.js
Frameworks & Libraries:	React.js, Next.js, Redux Toolkit, Tailwind CSS, Bootstrap, Express.js
Tools & Version Control:	Git, GitHub, Vite, Webpack, VS Code, Postman, Chrome DevTools
APIs & Architecture:	RESTful APIs, GraphQL, Component-Driven Architecture, Full-Stack Integration

PROFESSIONAL EXPERIENCE

Senior Fullstack React Developer | Zeikh

2023 – Present (Approx. 2.9 Years)

- Spearheaded the end-to-end development of scalable full-stack web applications utilizing React.js, Next.js, and Node.js.
- Mentored junior and mid-level developers, conducted thorough code reviews, and established robust architectural best practices for seamless frontend and backend integration.
- Optimized core application performance, caching strategies, and database queries, resulting in a substantial improvement in loading speeds and user retention.

Software Engineer / Frontend Developer | Tech Firm 02

2021.5 – 2023 (1.6 Years)

- Designed and maintained complex enterprise dashboards and client-facing web applications using React.js and TypeScript.
- Collaborated closely with UI/UX design teams to translate design systems into pixel-perfect, highly responsive user interfaces.
- Integrated third-party RESTful APIs and implemented scalable global state management architectures using Redux Toolkit.

Junior Frontend Developer | Tech Firm 01

2020 – 2021.5 (1.5 Years)

- Developed dynamic, interactive e-commerce platforms and utility interfaces utilizing HTML5, CSS3, JavaScript, and React.js.
- Resolved critical production bugs, enhanced cross-browser compatibility, and optimized DOM components for maximum efficiency across all devices.
- Actively participated in Agile sprint planning, daily standups, and peer alignment to ensure timely delivery of software features.

KEY PROJECTS

E-Commerce Web Application | React.js, Tailwind CSS, Redux Toolkit

- Engineered a fully responsive e-commerce platform featuring advanced dynamic product filtering, real-time search, and optimized cart flows.
- Centralized global state management using Redux Toolkit to securely handle user authentication, session data, and cart synchronization.

Project Management Tool | Next.js, TypeScript, Tailwind CSS

- Developed a full-stack collaboration platform empowering teams to seamlessly create, assign, and track multi-stage project milestones.
- Integrated dynamic interactive boards and real-time state updates to maximize team coordination and operational throughput.

Weather Forecast Dashboard | React.js, Tailwind CSS, OpenWeather API

- Built a high-performance weather application delivering real-time meteorological indicators, 7-day predictive forecasts, and instant location lookup.

EDUCATION

Bachelor of Science in Computer Science / Software Engineering

Graduated: 2020

University of Engineering and Technology / Affiliated Institution, Lahore
